The A\$6 billion harbour front regeneration project at Barangaroo will enhance Sydney's status as a global financial centre. This progressive financial precinct - the world's first carbon-neutral, zero waste Central Business District - will uniquely integrate commercial, event, residential, retail, educational, civic, cultural and entertainment spaces.

The new hub for the city's financial services is designed to rival those in Asia and an estimated 23,000 people are destined to work there when it is complete in 2022.
